PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in Java, Spring Boot, REST APIs, MySQL, React.js, and full-stack web development. Knowledgeable in Object-Oriented Programming, Data Structures and Algorithms, and SDLC, with a keen interest in software development and emerging technologies. A quick learner with strong problem-solving, communication, and collaboration skills, seeking opportunities to contribute to a dynamic software development environment.

TECHNICAL SKILLS

Programming Languages: Java, C++
Front-End Technologies: HTML5, CSS3, Bootstrap, JavaScript, React.js, jQuery, Responsive Web Design (RWD)
Back-End Technologies: Spring, Spring Boot, Spring Data JPA, Spring MVC, REST APIs, Hibernate
Database: MySQL
Programming Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Software Development Life Cycle (SDLC)
Tools and Technologies: Git, GitHub, VS Code, Eclipse, MySQL Workbench, JDBC, Postman
Other Skills: Problem Solving, Communication, Teamwork, Time Management

WORK EXPERIENCE

Java Full-Stack Developer Intern **Jan 2026 – Aug 2026**
TechFusion Computer Training Institute LLP

- Designed and implemented interactive and scalable UI components using HTML5, CSS3, Bootstrap, JavaScript, and jQuery, ensuring cross-browser compatibility and responsive behavior.
- Built and integrated Java, Spring, and Spring Boot-based backend functionality with database-driven applications.
- Assisted in database schema design, API integration, and deployment, enhancing overall system performance and code reusability.
- Practiced Agile methodologies and SDLC principles, including version control with Git, feature-based development, and performance optimization.

Front-End Web Developer Intern **Jan 2025 – Feb 2025**
Cordon Technologies Pvt. Ltd., Pune

- Implemented responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap, ensuring compatibility across various browsers and devices.
- Utilized Git and GitHub for version control and collaborated with the development team to deploy code updates and manage feature branches.
- Acquired practical experience in problem-solving, debugging, and implementing SDLC principles in a real-world development environment.

PROJECTS

Job Portal – Full-Stack Web Application **Aug 2026 – Sep 2026**
Technologies: React.js, Spring Boot, Spring Data JPA, Hibernate, Java, MySQL, REST APIs, JWT, Axios, Postman

- Developed a full-stack Job Portal using React.js, Spring Boot, Spring Data JPA, Hibernate, and MySQL, supporting Job Seeker, Employer, and Admin roles.
- Implemented JWT-based authentication and role-based authorization, along with job search, job posting, application management, company management, and applicant tracking.
- Built and integrated RESTful APIs with the React frontend using Axios.
- Tested and verified API functionality using Postman and implemented protected workflows based on user roles and ownership.

Responsive Web Template Collection **Feb 2026 – Mar 2026**
Technologies: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Responsive Web Design

- Created customized, theme-based templates for Medical, Bank, Bike and Construction using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Focused on UI/UX consistency, reusable components, and browser compatibility through efficient CSS structuring and JavaScript interactivity.
- Demonstrated modular development and attention to responsive grid layouts and DOM-based interactions.

Career Path Recommendation System **Jan 2025 – Feb 2025**
Technologies: HTML5, CSS, JavaScript, Firebase Authentication, Firebase Firestore, AI

- Developed an interactive career recommendation system using HTML, CSS, and JavaScript.
- Implemented Firebase Authentication and Firestore for quiz data storage.
- Integrated AI functionality to process quiz responses and dynamically suggest career options.
- Connected the frontend, backend, and AI components and performed manual testing.

EDUCATION

Bachelor of Engineering (B.E.) – Computer **2022 – 2026**
PDEA's College of Engineering, Savitribai Phule Pune University (SPPU) CGPA: 8.52

CERTIFICATIONS & TRAINING

- **SAP Certified – Back-End Developer – ABAP Cloud** **April 2026**
  SAP – Demonstrated proficiency in ABAP programming, ABAP RESTful Application Programming Model (RAP), and Clean Core principles for SAP S/4HANA development.
- **Basics of Python – Infosys** **Nov 2023**
  Infosys – Certification in Python fundamentals and programming concepts.
- **Full Stack Java Development** **Jan 2026 – Aug 2026**
  TechFusion Computer Training Institute LLP – Training in Java, Spring, Spring Boot, frontend development, database integration, REST APIs, and full-stack application development.
- **Generative AI for Software Developers** **Feb 2026**
  Microsoft Training in Generative AI and GitHub Copilot for coding, code review,documentation, and software development workflows.
- **Introduction to Software Engineering** **March 2026**
  IBM – Training in software engineering concepts and structured software development practices.
- **Introduction to Software, Programming, and Databases** **Jan 2026**
  IBM – Training in programming fundamentals, software concepts, and database basics.

ACHIEVEMENTS

- **SAP Code Unnati Innovation Marathon – National Level:** Achieved **Top 5 Finalist** position at Ahmedabad with SafeRail Vision cleared Quarter-Finals and Semi-Finals and presented an AI-IoT based railway safety solution.
- **EPAM India Scholarship for Women in Tech:** Awarded the scholarship after successfully clearing the selection interview, recognizing academic potential and commitment to a career in technology.
